Visit www.RiderCreations.com for more classes and workshops

WORKSHOP OUTLINE

GOALS-

Learn how to handle supplies and find out which tools best suit your needs.

Begin to learn the properties of encaustic medium and tools

Become proficient and confident in handling Encaustic medium and tools

Develop your Creativity

SUPPLY LIST:

While basic class needs are supplied you can individualize your experience by bringing in a few of your favorite things - *note, we may not get to it all! :)

Stencils, rubber stamps with ink pad; black and white printout for image transfer, small photo images or bits of lace or string that might be imbedded into the wax. Anything that might make an impression on the warm wax, anything that you might use as a stencil for patterns or shapes, letter punches, be creative! Also, for creative planning- a sketch book, pencil, scissors, ruler, masking tape, and eraser would be handy!

SAFETY:

This is a molten pigmented beeswax project.

Please bring whatever you need to protect your skin, clothing, etc., from pigment stains.

And be careful- tools and materials will reach temperatures around 200 degrees.

Arizona Art Supply - **Phoenix**
